## SUMMARY

AI & Data Science graduate with hands-on experience building, evaluating, and deploying machine learning models. Proficient in Python, Scikit-Learn, and SQL, with a focus on data preprocessing, feature engineering, and predictive modeling. Eager to leverage strong technical foundations to develop robust, scalable ML solutions.

## TECHNICAL & SOFT SKILLS

- **Programming:** Python, OOPs Concept, SQL.
- **ML & Data Processing:** Scikit-Learn, Pandas, NumPy, Feature Engineering, Model Evaluation, Data Wrangling.
- **Visualization & Tools:** Power BI, Seaborn, Matplotlib, Git, GitHub, Jupyter Notebooks.

## PROJECTS

### Credit Card Fraud Detection using Machine Learning | [Project Link](#)

- Developed an end-to-end classification pipeline in Python using Scikit-Learn to identify fraudulent transactions in an imbalanced dataset.
- Applied random under-sampling on majority-class transactions to mitigate class imbalance and improve model convergence.
- Trained a Logistic Regression model on balanced training sets and evaluated performance on held-out test data, achieving 92% test accuracy.

### Amazon Prime TV Shows and Movies EDA | [Live App](#)

- Performed comprehensive exploratory data analysis on 9,500+ records using Python and Pandas to uncover content distribution trends.
- Executed data cleaning pipelines, handling missing values, standardizing categorical data, and structuring features for analytical modeling.
- Created custom data visualizations using Seaborn and Matplotlib to present actionable insights on genre performance and viewer engagement.

## EDUCATION

### Shri Ram Group Of Institution

B.Tech in Artificial Intelligence and Data Science

Jabalpur, Madhya Pradesh

Sep 2021 - July 2025

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning, DBMS, OOPs in Python, Web Technology.

## INDUSTRIAL EXPOSURE

### AlmaBetter Trainee - Data Science

Oct 2025 - Present

- Trained on core Data Science & ML methodologies, building end-to-end data pipelines and predictive models using Python.

### Aegis I-Net Pvt. Ltd. Industrial Trainee - LINUX & Cloud

Jun 2023

- Gained exposure to foundational computing infrastructure and system administration environments through an industrial training program.
