SUMMARY

AI & Data Science graduate with hands-on experience in Machine Learning, predictive modeling, and data preprocessing. Strong foundational knowledge in Python, Scikit-Learn, and Deep Learning concepts, with academic exposure and focus on NLP workflows, Audio Processing tools (Whisper, Librosa), and API integrations (FastAPI).

TECHNICAL & SOFT SKILLS

- **Programming:** Python (OOPs), SQL, Data Structures & Algorithms.
- **Machine Learning & Deep Learning:** Scikit-Learn, Pandas, NumPy, Feature Engineering, Model Evaluation, Neural Network Basics.
- **NLP & Audio Processing:** Text Preprocessing, NLTK, spaCy, Hugging Face Basics, Librosa, Whisper (ASR Concepts).
- **Developer Tools & APIs:** Git, GitHub, REST APIs (Requests, Postman), Power BI, Jupyter Notebooks.

PROJECTS

Credit Card Fraud Detection using Machine Learning | [Project Link](#)

- Developed an end-to-end classification pipeline in Python using Scikit-Learn to identify fraudulent transactions in an imbalanced dataset.
- Applied random under-sampling on majority-class transactions to mitigate class imbalance and improve model convergence.
- Trained a Logistic Regression model on balanced training sets and evaluated performance on held-out test data, achieving 92% test accuracy.

Amazon Prime TV Shows and Movies EDA | [Live App](#)

- Performed comprehensive exploratory data analysis on 9,500+ records using Python and Pandas to uncover content distribution trends.
- Executed data cleaning pipelines, handling missing values, standardizing categorical data, and structuring features for analytical modeling.
- Created custom data visualizations using Seaborn and Matplotlib to present actionable insights on genre performance and viewer engagement.

EDUCATION

Shri Ram Group Of Institution

Jabalpur, Madhya Pradesh

B.Tech in Artificial Intelligence and Data Science

Sep 2021 - May 2025

- **Relevant Coursework:** Natural Language Processing, Machine Learning, Deep Learning, Data Structures & Algorithms, DBMS, OOPs in Python.

TRAINING & INTERNSHIP

AlmaBetter Trainee - Data Science

Sep 2025 - Present

- Completed comprehensive training focused on analyzing complex, real-world datasets using Python to extract insights and support data-driven decision-making.
